F-16F UNITED ARAB EMIRATES AIR FORCE

The twin-seat Block 60 F-16F Desert Falcon is being developed for the United Arab Emirates Air Force and is the latest and most advanced F-16 variant fielded ever. It features conformal fuel tanks, the AN/APG-80 agile beam radar, advanced weapons compatibility, an internally mounted FLIR targeting system, a new glass cockpit, internal countermeasures, the F110-GE-132 engine and enhanced performance.

The United Arab Emirates Air Force ordered a total of 80 F-16E/F Block 60 aircraft (55 F-16Es and 25 F-16Fs) in 1998, becoming the first customer for this advanced version of the F-16. Given that the Block 60 has only been offered to the United Arab Emirates, all development costs have been paid for by the UAE. The UAE have linked a potential order to the availability of the AIM-120 AMRAAM.

The first UAEAF F-16 Block 60 made its maiden flight at Lockheed's facilities in Fort Worth, Texas on December 6th, 2003. The aircraft's designation, F-16E/F, recognizes the major structural, avionics and propulsion enhancements in this practically all-new version of the F-16.

The UAE purchased USD \$2 billion in sophisticated aircraft armament for its F-16s, including 491 AIM-120B AMRAAM Missiles, 267 AIM-9M Sidewinder, 163 AGM-88 Harm, 1,163 AGM-65D/G Maverick, 52 AGM-84 Harpoon, laser guided bombs, 20mm ammunition and other sophisticated weaponry.

! CAUTION

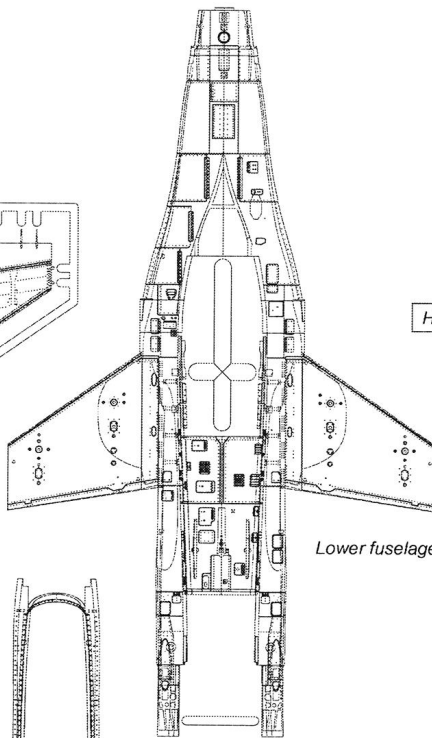

- *Read carefully and understand fully the instructions before commencing assembly.
- *Keep out of reach of children. Children must not be allowed to put any parts in their mouths, or pull plastic bag over their heads.
- *When using adhesives and paints, please make sure not to use them in closed room or near the fire.
- *When assembling this kit, tools including knives are used. Extra care should be taken to avoid injury.

WARNING: CONTAIN SMALL PARTS NOT FOR CHILDREN UNDER 14 YEARS OF AGE.
