Conversion set for basic plastic kit **T-55A** (Tamiya 1/35). Kit contains parts of resin (in instruction marking **R**) and decals. Assemble using a cyanoacrylate glue or quick setting epoxy glue. When sanding resins or any material which produces a fine dust always wear a dust mask and work in a well ventilated area. If distorted immerse part in hot water, correct, and then immerse in cold water. Gentle heat from e.g. hairdryer will also work. **"Do not use naked flame !!!"**. Polyurethane resin kits needs to be washed in warm soapy water like any normal plastic kit before painting. Use any type of paint suitable for normal plastic kits

Konverzní sada je určena pro přestavbu modelu **T-55A** (Tamiya 1/35) Kit obsahuje díly z umělé pryskyřice (v návodu jsou označeny písmenem **R**) a obtisky. Při řezání a broušení si chraňte dýchací cesty před vdechnutím prachových částic, které mohou být za určitých podmínek zdraví škodlivé. K lepení používejte sekundové lepidlo.
