| 22) ISLAND WALKWAY | |

PROTOTYPED PART

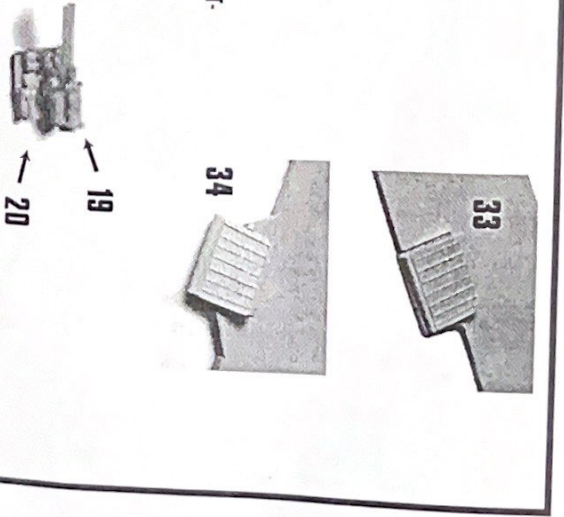

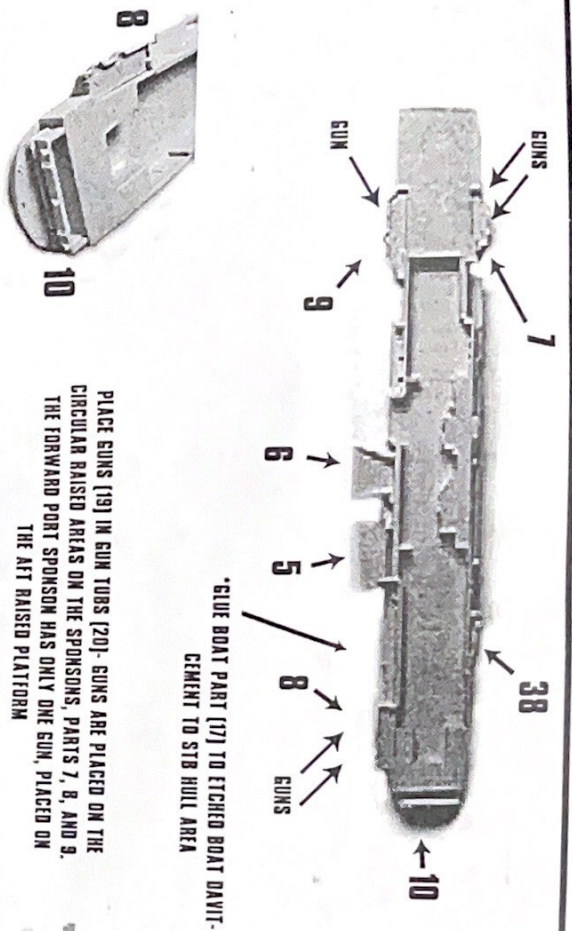

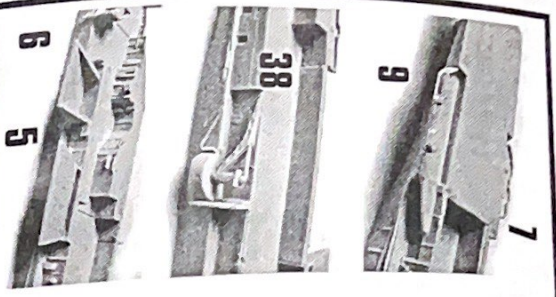

ISLAND SUPERSTRUCTURE ASSEMBLY

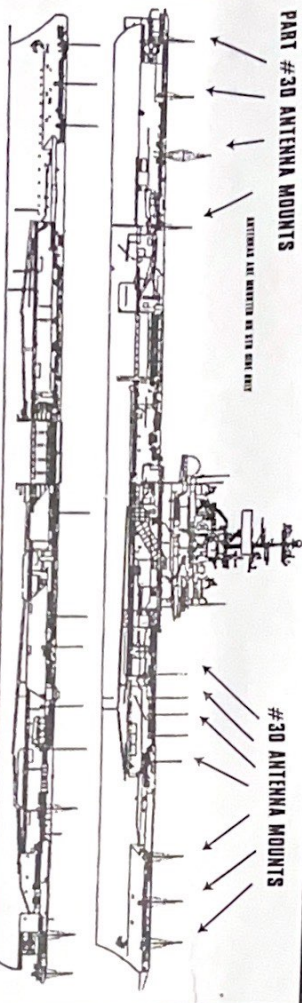

THIS MODEL IS MADE FROM CAST RESIN, PLYWOOD, AND PROTOTYPED BRASS PARTS. SOME MINOR CLEANUP OF PARTS IS TO BE EXPECTED. REMAINING FLASH, LEFT TO PROTECT DELICATE PARTS, IS EASILY CLEANED UP WITH AN X-ACTO KNIFE. CAREFUL DRY-FITTING OF PARTS IS RECOMMENDED. □

BENT PARTS CAN BE RESHAPED BY IMMERSING THEM IN HOT WATER FOR A FEW SECONDS AND BENDING INTO SHAPE. LONGER PARTS CAN BE RESHAPED WITH A HAIR DRYER.

USE CYANOACRYLATE GUE (SUPER GUE) TO CEMENT PARTS. USE GUE SPARINGLY! SOME PARTS MAY NEED FLAT SANDING TO REMOVE RESIN OVERSPURS, AND MOST OF ALL, HAVE FUN!

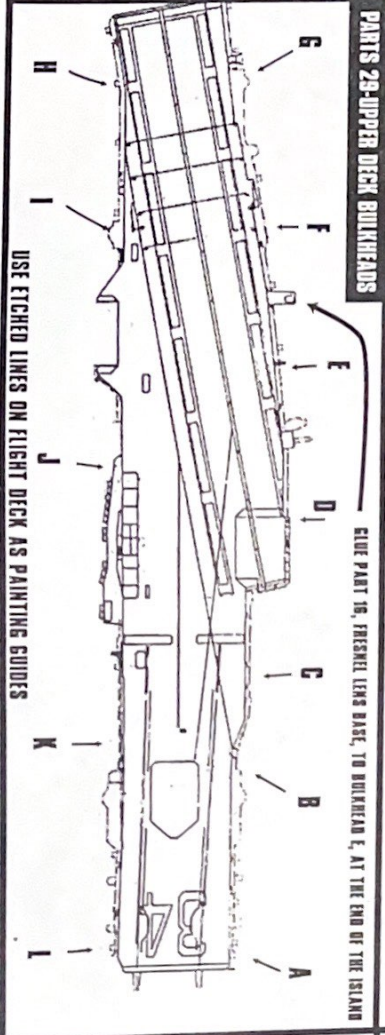

PART #30 ANTENNA MOUNTS

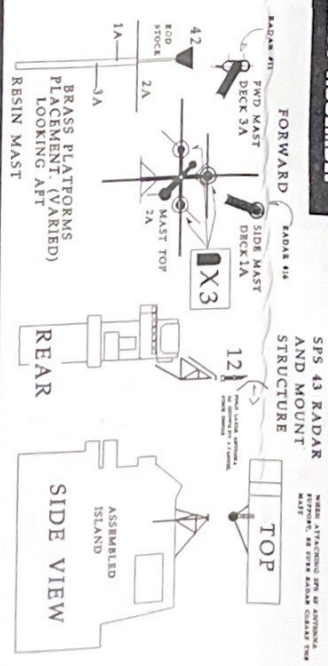

PARTS #32 LIFE RAFT BASKETS

PLACE ON EITHER SIDE OF HULL PER DRAWINGS

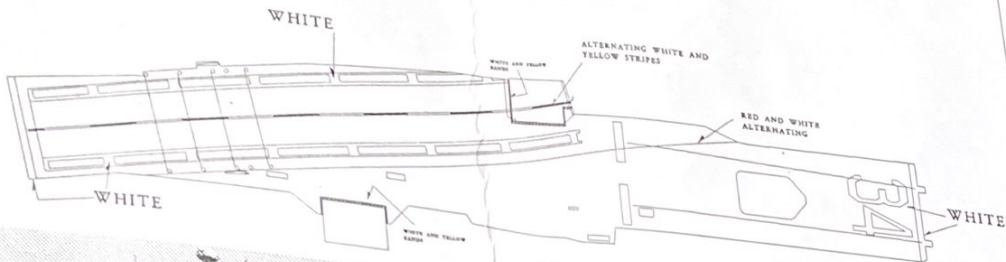

MAST ASSEMBLY
