

# TAMIYA ENTERPRISE AIRCRAFT DETAILS

TOM'S MODELWORKS

1/350 SCALE SET 3525

Do not remove the parts from tree until you are ready to add them to the model. Before assembly, soak brass items in solvent or warm soapy water to de-grease the surface for later painting. Brass parts may be assembled and added to model using cyanoacrylate glues (super glue). When removing parts from tree, place on a hard flat surface underneath the brass when cutting tabs, this will prevent bending of parts. When shaping or bending a part, a straight edged blade such as an x-acto chisel type blade (#17 or 18) will give a good square corner. It will also help to make some bending dies out of plastic strip or other materials. Should you bend a part incorrectly, lay the part on a hard flat surface and roll flat again.

Reference Material: The USS Enterprise in Detail and Scale by Bert McKinzey, the Detail and Scale series aircraft books and thank you Scott Walters

This set contains brass detailing items for each of the aircraft contained in the Enterprise kit. Parts such as gear doors, wheel struts, tail doors, wheel rims, have been provided per aircraft type. Additional detailing note Most aircraft had two nose wheels, the kit aircraft only provides one. The modeler may wish to purchase additional aircraft sets to obtain the second wheel.

## F-18A HORNET

- 1) Wing Pylons 
- 2) Nose Gear 
- 3) Main gear 
- 4) Main Gear Doors 
- 5) Main Gear Door Outside 
- 6) Main Gear Door Inside 
- 7) Drag Link Door 
- 8) Tail Hook 
- 9) Nose Gear Middle Door 
- 10) Nose Gear door right side 
- 11) Nose Gear door left side 
- 12) Wheel Rims 
- 13) Entry Ladder 

## F-14A TOMCAT

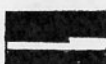

- 1) Nose Gear 
- 2) Main Gear 
- 3) Tail Hook 
- 4) Entry Ladder 
- 5) Nose Gear Doors 
- 6) Top Air Brake 
- 7) Bottom Air Brake 
- 8) Wheel Rims 
- 9) Main gear doors 
- 10) TCS 
- 11) Glove Pylon 
- 12) Sidewinder Rails 
- 13) Drag Link Door 

## A-6E INTRUDER

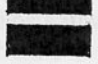

- 1) Main Gear 
- 2) Nose Gear 
- 3) Tail Hook 
- 4) Wing Air Brakes 
- 5) Nose Gear Doors 
- 6) Main Gear Doors 
- 7) Refuel Probe 
- 8) Inboard Pylon 
- 9) Outboard Pylon 

We invite you to check out our web site [www.tomsmodelworks.com](http://www.tomsmodelworks.com) to review our large selection of ship related detailing sets. There are over 100 different sets to choose from.
