

Mix approx. 1 to 10, black and aluminium	Xtracolour X303	Boeing 707 Gray
Corrogard	Gloss White	Bare Metal

Copyright © 2002 Made in USA

Federal Express took delivery of some of the last DC-10s and first MD-11s to roll off the production line. Over the years the fleet has steadily grown as FedEx has bought any used DC-10 or MD-11 they can get their hands on. As a result both P&W and GE powered MD-11s are now in the fleet. Painting is overall the same for both types. The main difference being the location of the titles on the fuselage and the patterns on the wings and horizontal stabilizers. Match the purple on the decal sheet for painting the tail sections. An exact match is available from XtraColour as X303. Notice the small bare-metal area that runs up and down the belly. Only the most forward doors have outlines and are usable. The rest are just shown to be used as a guide for painting and decal placement. Notice that the port holes are still there as well as two windows on each side. Extra windows are provided in case something out of the ordinary exists. Place all decals as shown and as indicated on the decal sheet. We've included the large "Express" titles and gray registration numbers as this seems to be the general trend and may be adopted to all aircraft in the future. Check your references for the exact aircraft you are building. Detail locations are also the same for both aircraft. Again, check your references. A good site on the web is [www.Airliners.net](http://www.Airliners.net) for viewing pictures. Ship names are only carried on the left side.

### MD-11

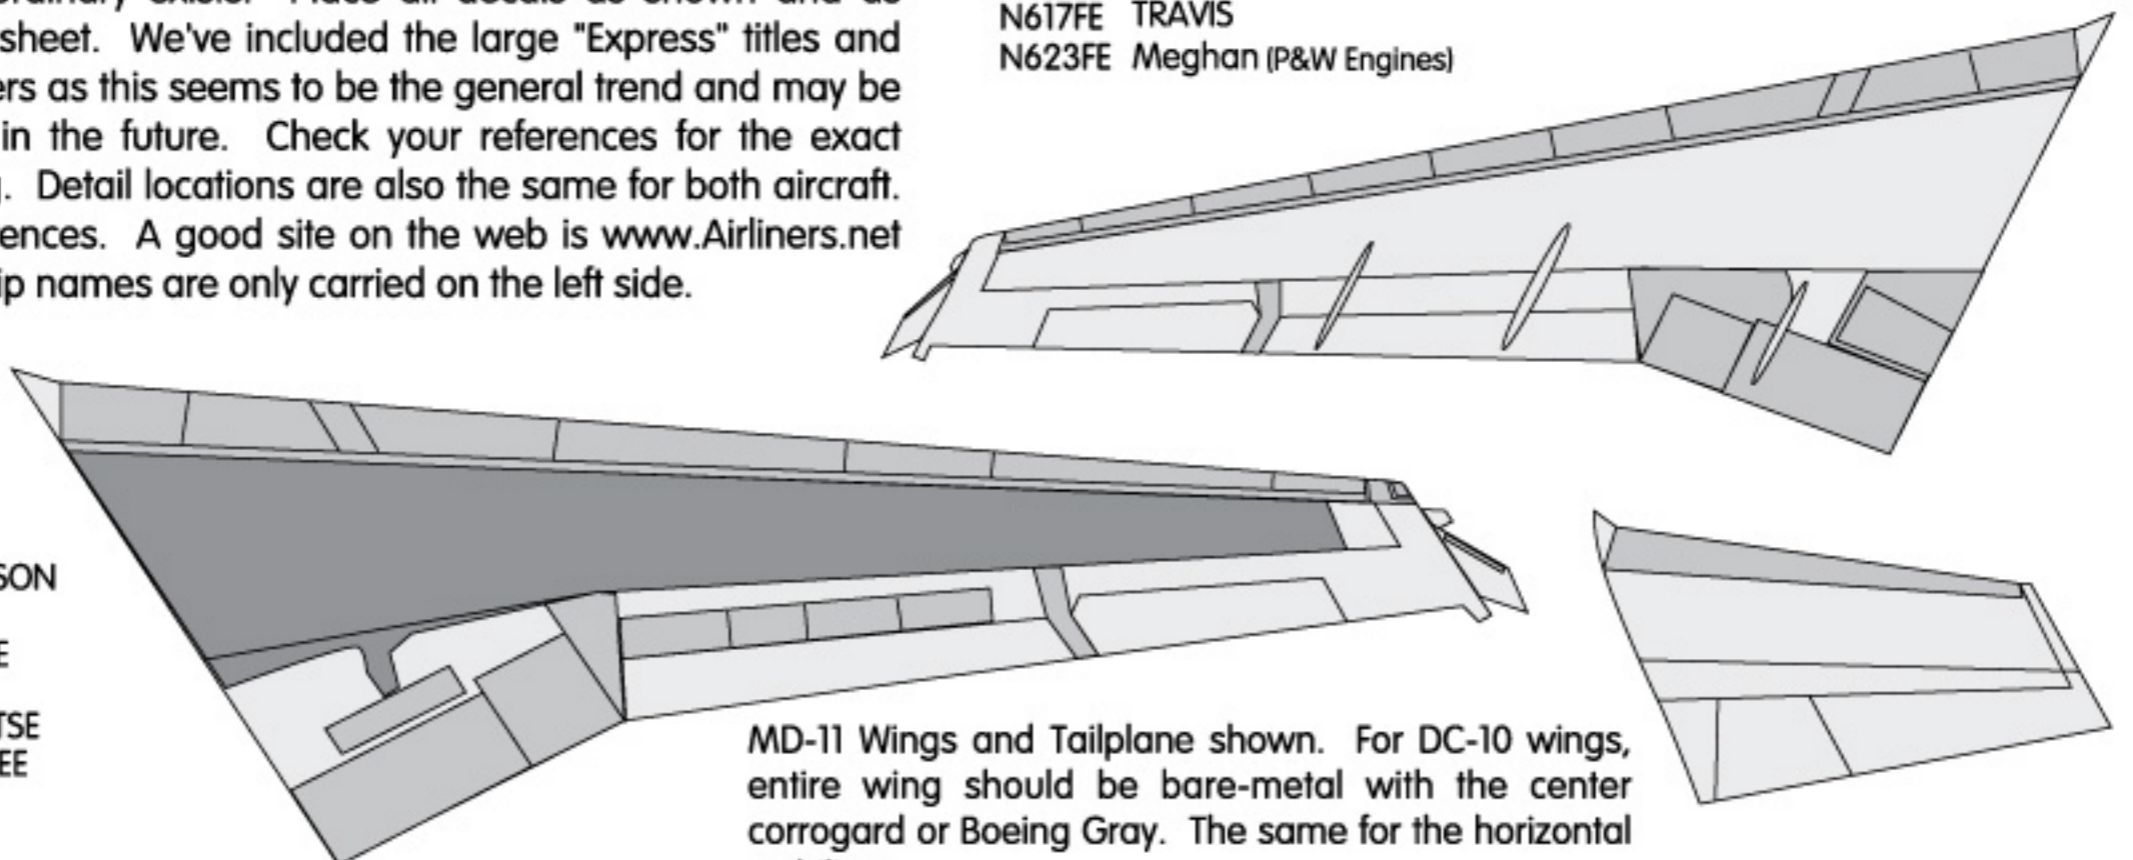

- N583FE Nancy
- N587FE JEANN
- N601FE CHRISTY; JIM RIED
- N602FE MALCOLM BALDRIDGE
- N603FE ELIZABETH
- N604FE HOLLIS
- N605FE APRIL STAR
- N607FE LOUIS III
- N608FE DANI ELENA
- N609FE SCOTT
- N611FE CORY
- N613FE KRISTA
- N614FE CHRISTY ALLISON
- N615FE MAX
- N616FE SHANITA
- N617FE TRAVIS
- N623FE Meghan (P&W Engines)

### DC10-30

- N301FE TARA LYNN
- N302FE BRIAN JR.
- N303FE AMANDA MARIE
- N304FE ALISON
- N305FE JOHN DAVID; LAMAR
- N306FE JOHN PETER JR.
- N307FE ERIN LEE
- N308FE ANN
- N309FE STACEY
- N310FE JOHN SHELBY
- N311FE ABE
- N312FE ANGELA
- N313FE BRANDON PARKS
- N314FE CAITLIN ANN
- N315FE KEVIN
- N316FE BRANDON
- N322FE KING FRANK

### DC10-10

- N10060 HAYLEE
- N68049 DUSTY
- N68050 MERIDETH ALLISON
- N68051 TODD
- N68052 JANETTE LOUISE
- N68053 CHAYNE
- N68054 LISA MARIE; BETSE
- N68055 CHANDRA RENEE
- N68056 VALERIE ANN
- N68057 NELSON

MD-11 Wings and Tailplane shown. For DC-10 wings, entire wing should be bare-metal with the center corrogard or Boeing Gray. The same for the horizontal stabilizer.
