RB-T010 Rivet-R Mini (Riveting tool)

NOTES: Some of the edges of the photo etched parts may be sharp. Please take care when handling them. Holder can be separated from the fret by cutting through the tabs with a clipper or metal scissors. The wheels can be removed from the fret by twisting them along the tab axis. Remove all tab leftovers with a file.

The teeth of the scribing wheels are sharp - please take care when using it to avoid injury. Please use eye protection.
