## F-14 TOMCAT

The Grumman F-14 is an air superiority fighter without equal. It has been proven to be one of the most maneuverable combat fighters ever developed. The "Tomcat" utilizes movable, variable geometry wings to provide maximum performance over a broad spectrum of flight characteristics. The F-14 is equipped with an array of sophisticated systems that transforms it into a lethal combat aircraft.

The F-14 is a two seat aircraft capable of speeds in excess of Mach two. The aircraft is powered by two Pratt and Whitney TF-30 Turbofan engines that develop nearly 21,000 pounds of thrust each. The "Tomcat" is 62 feet long and has a wingspan of 61 feet, 10 inches.

\* REPEAT SEVERAL TIMES  
\* A REPETER PLUSIEURS FOIS

\* REMOVE AND THROW AWAY  
\* A RETIRER ET JETER

\* APPLY STICKERS  
\* APPLIQUEZ LES AUTO-COLLANTS

\* TRIM  
\* D'ECOUPER

\* OPTIONAL PARTS  
\* PIECES EN OPTION

# Step 4

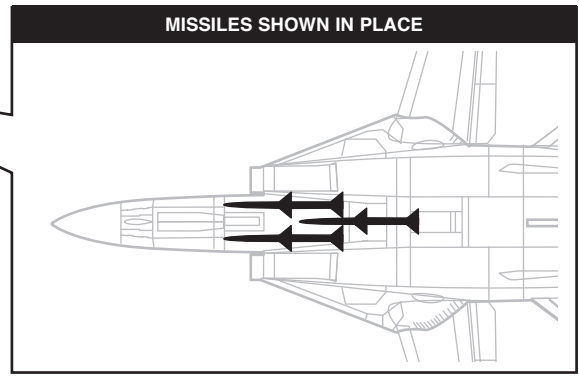

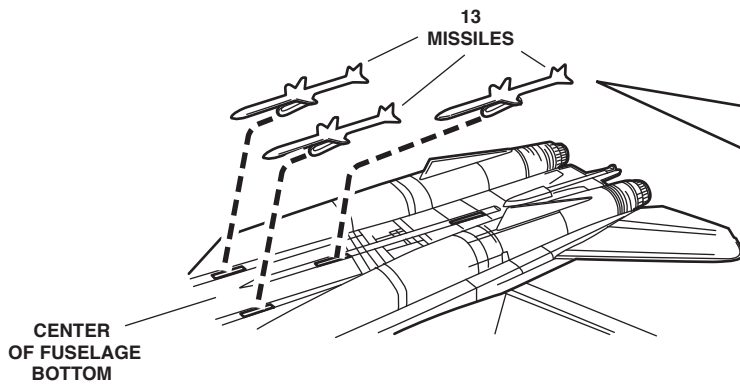

**A**

**B**

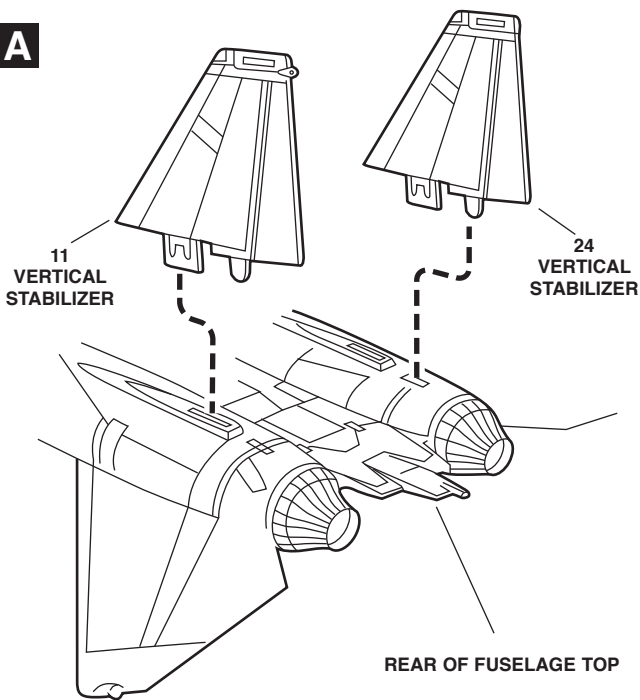

**C**

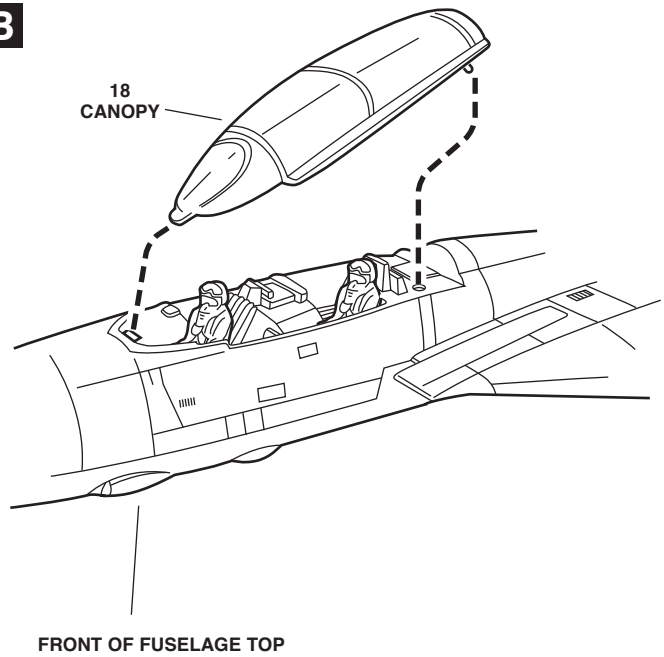

# Step 5

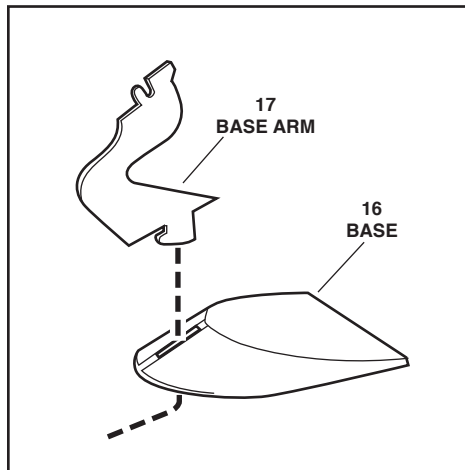

**A**

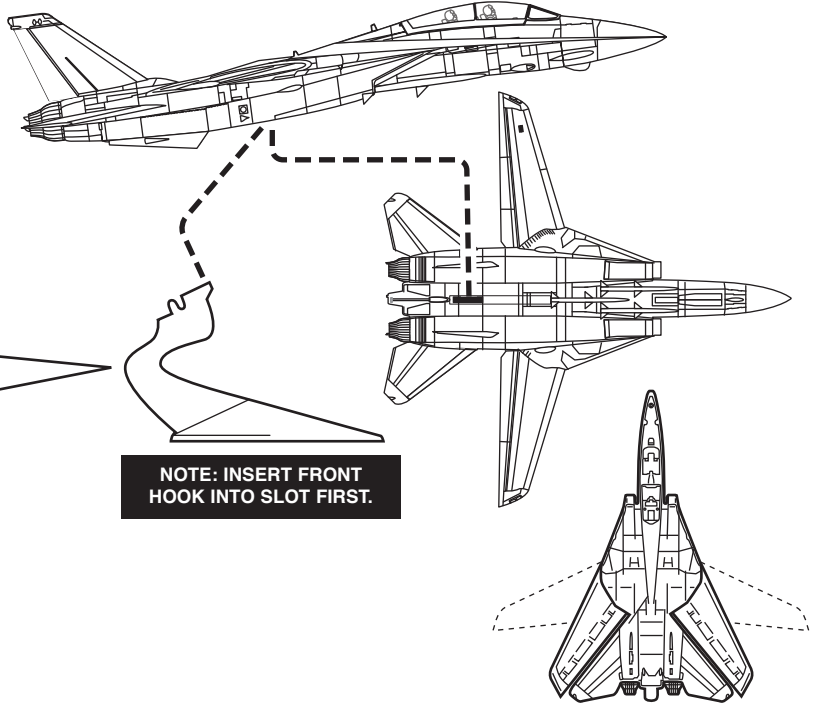

**B**

## Step 6

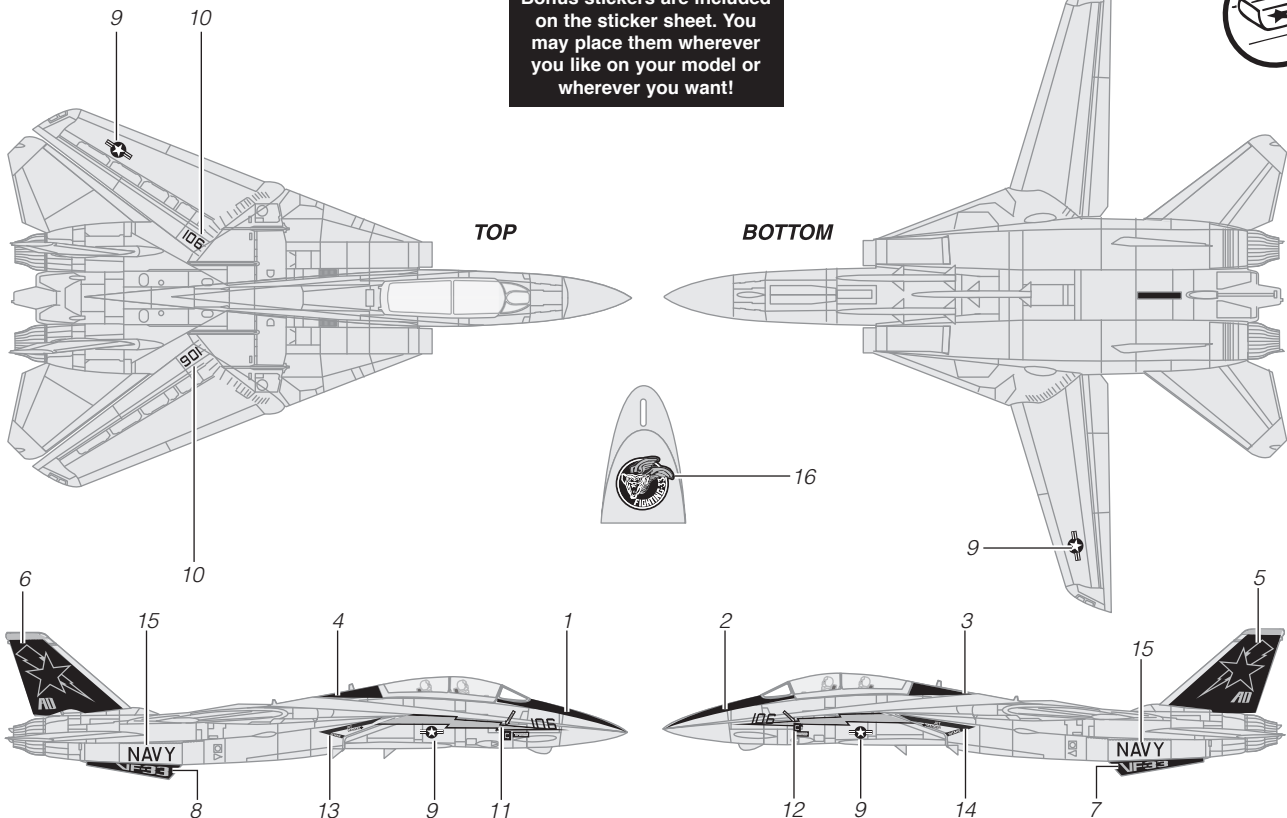

NOTE: AFTER SLIDING PART # 17 INTO PART #16, SLIDE BACK TO LOCK INTO PLACE.

## Step 7

Bonus stickers are included on the sticker sheet. You may place them wherever you like on your model or wherever you want!

NOTE: When applying stickers, avoid touching the "sticky" side to prevent finger prints on stickers. Bend sticker sheet slightly to lift edge of sticker & use a finger nail to lift sticker from sheet. Line up sticker on body and press an edge into place, slowly working sticker with a finger nail until sticker is fully on model.

REMARQUE : Pendant l'application des autocollants, éviter de toucher à la face collante pour ne pas laisser d'empreintes. Plier légèrement la feuille d'autocollants pour relever le bord d'un autocollant, et le détacher de la feuille avec le bout d'un angle. Aligner l'autocollant sur la carrosserie, appuyer pour coller un de ses bords, et continuer de l'appliquer lentement du bout de l'angle jusqu'à ce qu'il soit complètement collé sur le modèle réduit.
