SC.72-28 Tornado Slatted Wings

The wings in this conversion kit are designed to fit all versions of the Hasegawa Tornado.

Remove any flash etc from resin wings, replace the complete wing assemblies provided in the kit with the resin wings. The wings should be fixed in forward position.

Airwaves are designed and manufactured in the Midlands by E.D. Models, 64 Stratford Road, Shirley, Solihull B90-3LP.

If wing pylons are to be used, drill out locating holes
