

# Set AC48-34

## AIRWAVES

Dornier Do 335

This detail set is manufactured from photo etched brass sheet and is meant for use on the Monogram model.

Use a sharp modelling knife on a firm surface to separate components from frame cutting as near to the part as possible. Tag scars can be cleaned by holding part in pliers and using a fine file. To fold part support up to line of fold in pliers and fold in one go using a screwdriver blade for leverage. For assembly use superglue or 5 minute epoxy. Prior to painting ensure parts are fully defluxed by cleaning in washing up detergent and rinsing in clean water. Dry parts thoroughly and prime with either self etching primer or matt enamel. Position of parts in diagram are for guidance only, for final positioning and colouring consult reference material.

Airwaves are designed and manufactured in the Midlands for E.D. Models, 64 Stratford Road, Shirley, Solihull, West Midlands B90 3LP, England. Telephone: 021-744-7488.
