

Avro Lancaster B.III ED666 WS-G 'Goofy' 9 Sqn June 1943

**Avro Lancasters of 9 Squadron**

In February 1939, the Squadron moved to Honington received Wellingtons, and it was with these that it was involved in anti-shipping sorties in the early stages of World War II. These were replaced in turn by the famous Lancaster bomber in September 1942 and the unit became part of Bomber Command's strategic offensive against German targets and was now based at Waddington. Following a move to nearby Bardney, No. 9 Sqn specialised in dropping large bombs and the 12,000 (5.440kg) 'Tallboy' in particular.

Avro Lancaster B.I LL804 BH-F (Lady in a champagne glass) 300 Sqn (Polish) Faldingworth 1944
