

Mouse Armour

1/35 scale
Kit MA115
1/35 Land Rover bar tread
tyres (4 + spare)

Parts

2 Front tyres (with tab)
2 rear tyres
1 Spare tyre

Tools

Handy tools would include a sharp model knife and super glue.

How to assemble

These tyres with rim can be used replace the sand tyres of the Tamiya Pink Panther kit or replace the "low detail" tyres of the Italeri Series 3 or Special Forces Land rover.

Tamiya Series 2 Land Rover

Front Tyres - Discard kit parts C1+C2+A32 and replace them with the resin tyre provided. The front tyres can be identified by the tab that fits into parts A9 and A10. Then continue to assemble as per the instructions to make an animated front suspension.

Rear tyres - Discard kit parts C1+C2+A31 for the rear tyres and replace with the resin tyres (without tab) provided. These fit onto kit part A11.

Italeri Series 3 Land Rover

Replace kit parts B25 and B26 with the resin tyres. The central shaft of the stub axles parts A18 and A19 will need to be shortened by about 1.5mm to fit the centre hole of the resin tyres. Parts B27 will not need to be used.
