Recommended kit: MPM/Special Hobby

Decal aanbrengen. De afbeeldingen uitknippen, niet te krap, hou een paar millimeter om de afbeelding vrij. Leg de decal op zijn kop in lauw water. een paar seconden! Breng de decal aan op het model, leg de afbeelding op de plek waar je hem wilt hebben, en schuif hem voorzichtig op zijn gewenste plaats. Aandrukken met een zachte doek, eventueel met gebruik van veel water nog even schuiven. Decal verzachtters kunnen gebruikt worden. Decals niet meer aanraken! Laten drogen en eventueel een vernislaag aanbrengen naar keuze. **Decals altijd aanbrengen op een glansende ondergrond!** Dit kan een glanslak zijn of een glansvernis. Dutch Decal is niet verantwoordelijk voor fouten van de modelbouwer. Decals bewaren op een donkere droge plaats, liefst in de originele verpakking. Tip: Koop altijd eerst een decalset, en dan de bouwdoos. Succes met de hobby.
