

P61 BLACK WIDOW This pack contains a waterslide decal sheet and decoration guide for 7 schemes, including Nose Art & tail numbers for the awesome U.S. night-fighter, the P61 'Black Widow'. The Nose-Art applied to these aircraft was consistently well rendered, surprising considering that they operated in entirely different theatres - Europe and the Pacific. The artists also made full use of the large area just under and in front of the cockpit allowing for very large and eye-catching illustrations on a virtually flat 'canvas'.
