Special Thanks!

We are deeply indebted to Brig. Gen. Bob Scott, USAF, Ret., for his kind assistance and evaluation of our finished artwork. We know how much he loved this jet and hope we do it—and him!—justice.

MODELWORKS

**Special Recognition:**

It's unusual to be able to find the names of the ground crew for most of the aircraft we make decals for, but in this case, thanks to General Scott, we are proud to acknowledge the herculean efforts of MSgt **Ernest Helman**, the first crew chief from 26 September 1950 to January 1952, and Sgt **Robert E. Syrett**, who took over later. "Old 2299" flew over 1000 hours in 1952 alone, an amazing flight accomplishment that is the equivalent in air miles of nearly 21 trips around the Earth!
