French Light Armoured Car

# AML-90

The French Panhard AML (Auto Mitralleuse Légère, or light armored car) is a 5.5 ton lightly armored welded steel 4x4 that first entered service in 1960. With some 4,000 units produced, the AML was developed into multiple specific variants, and was exported widely.

The AML-90 (also known as the AML H 90 or AML-245C) is armed with a DEFA low-pressure 90mm rifled gun and a co-axial 7.62mm machine gun housed in its Hispano-Suiza turret, making it ideal for taking out AFV threats. The vehicle has a crew of 3, and is powered by an 87hp 65-kW Panhard Model 4HD air-cooled petrol engine reaching speeds up to 90km/h (56mph) with a range of 600km (373 miles).
