## NH-90/MHR-90 TTF Drawings

**1**

Stage 1 - Cut out the engine deck from both sides of the Kit fuselage as shown Blue above.

Fit in new resin engine deck part No 1.

**2**

Stage 2 - Fit the two engines either side of the rear deck parts 2 and 3.  
Note which engine goes which side.

# 3

Stage 3 - Fit the fold down intakes both sides, part No's 6 and 7.

Fit the rear engine deck cover part 5. You may want to Drill out the exhausts but these are painted Black.  
Fit the front engine deck cover part 4.

# 4

Stage 4 - Fit the new wheel sponsons either side of the fuselage parts 8 and 9 to replace the Kit parts

Part 9

Part 8

 Casting By Tomas Valch  
 Artwork By Jon Freeman

## INSTRUCTIONS

- Remove any flash by gently snapping off, or cutting with a scalpel and then lightly sanding.
- Only use Super-glue or a two-part epoxy glue to fix parts.
- Gluing is easier if mating surfaces are slightly sanded to roughen the resin before gluing. Also clean off any dust before gluing.
- Before painting, thoroughly wash all parts in warm water with detergent.
- We recommend the application of a base coat in a light colour to show any blemishes prior to final painting.

## WARNING & SAFETY!

- These parts are moulded in polyurethane resin. Please take care when sanding and cleaning up the resin by wearing a dust mask or other protective breathing device to avoid inhalation of the dust particles.
- Wash hands, resin parts and the work surface after sanding resin.
- When using Super-glue or two-part epoxy glue, please take precautions to avoid contact with skin and eyes. It is also advisable to wear a mask to avoid breathing in any fumes from the glue or work in a ventilated room.
- The use of barrier creams on hands or wearing disposable gloves, and working in a well ventilated area, is strongly recommended.
- Not suitable for children under 14 years of age.

Thank you for purchasing this Air-Graphics product which forms part of a range of accessories, conversion sets, decals & kits all to 1/72 Scale.
