AIRWAVES
Grumman F9F-5P Panther

This conversion kit is manufactured from polyurethane resin and is designed to fit the 1/48 Monogram F9F Panther model kit. Any seam lines or flash can easily be removed by carefully scraping with a sharp scalpel blade and finishing with wet wet and dry paper. Prior to use and painting wash in cold soapy water. For fixing new nose and viewfinder use five minute epoxy or superglue. Proceed by removing the kit nose section as shown on the drawing. Remove the front bulkhead from the nosewheel well interior kit part 24, also the front of the cockpit bucket kit part 15. Assemble kit as normal. Fit and fix resin nose. Replace the kit gun sight with resin viewfinder. Fill and finish as desired. Cut out and fit camera bay windows from 10 thou clear plastic using white pva glue. Airwaves are produced and distributed solely by E.D. Models, 64 Stratford Road, Shirley, Solihull, West Midlands B90 3LP, England. Telephone: 021-744-7488. Fax: 021-733-2591.
