

Antonov An-24B

PLASTIC MODEL KITS
LIMITED EDITION
CAT.NO. 72356

SPAN : 406 mm
LENGTH : 331 mm
PARTS : 159 pieces
SCALE:1/72

Due to the fact that Il-14 piston engine aircraft had to be replaced by the same aircraft class with turbo engines, in 1957, OKB Antonov (Antonov Design Bureau) proposed to design a new aircraft on short to medium haul trips and with possibility to operate from small unprepared airports. Its performances and power plant provided the operation in high mountains and in a wide range of temperatures. The An-24 prototype made its maiden flight on April 20, 1960. In 1962, serial aircrafts were put into Aeroflot service. In 1963, the first 50-seat An-24V aircrafts started to flight between Moscow, Voronezh and Saratov

Next versions are: An-24V Series II - 50-seat mixed passenger, cargo and freight version; An-24RV - similar to the previous version, but fitted with a 1,985-lb (900-kg) thrust auxiliary turbojet engine for engine independent starting and for increasing the power to weight ratio at take off; An-24T - freight transport version with a cargo door in the tail fuselage, two ventral fins from the exterior of the cargo door, overhead-track hoist and airdrop equipment; An-24RT - similar to the An-24T, but fitted with an auxiliary turbojet engine as on the An-24RV; An-24LP-forest fireproof version. Totally, 1100 An-24 aircrafts for civil and military operations were produced.

The model is executed on technology short run and is intended only for experienced modelers!
World-wide distributor for AMODEL kits : IBG, Warszawa, Poland
Fax:(4822)842-56-29 , E-Mail:ibgsc@ibg.com.pl

Модель виконана за технологією Short run і призначена лише для досвідчених модельєрів
Дистриб'ютор моделей AMODEL : IBG, Варшава, Польща
