

This detail set is manufactured from photo etched brass sheet and is for use on the Revell model kit.

Prior to using fret wash in liquid detergent and rinse in clean water to deflux and clean parts. To separate parts support fret on a firm surface such as a ceramic tile, and cut as near to the part as possible using a new sharp blade. Tag scars can be cleaned by holding part in pliers and using a fine file. To fold part, support up to line of fold in pliers and fold in one go using a screwdriver blade for leverage. For assembly of parts use superglue or five minute epoxy. Prior to painting, prime parts using matt enamel or self etching primer. Position of parts in diagrams is for guidance only, for final position and colouring consult reference material, details of which are elsewhere on this sheet.

Airwaves are manufactured and distributed by E.D. Models, 64 Stratford Road, Shirley, Solihull, West Midlands B90 3LP, England. Telephone: 021-744-7488, Fax: 021-733-2591

Note that only the best materials are used in the manufacture of this set and that any waste is safely disposed of, not causing pollution to the environment.

For further helpful hints to using etched brass and for full details of the extensive Airwaves range including tools and templates get a copy of the latest Airwaves catalogue

**1 HARNESS**

**2 RUDDER PEDALS (X2)**
