

Set SC72-37

AIRWAVES

Boeing B-52G&H Fuel Tanks

The fuel tanks are manufactured from polyurethane resin and should be cleaned in soapy water prior to use and painting. Seam lines and any flash can be removed by scraping with a sharp scalpel blade and then rubbing down with wet, wet and dry paper. Fill in holes in kit wing where large D type tanks fit. File and fit resin tank & pylon using either two part epoxy or superglue. Fill where necessary and finish to suit. Airwaves are distributed by E.D. Models, 64 Stratford Road, Shirley, Solihull, West Midlands B90 3LP, England. Telephone: 021-744-7488. Fax: 021-733-2591
