**DS** Dragon is always at the forefront in utilizing new technology and material in the development of its various product lines. Such innovation is geared to reduce the modeler's construction time and effort, but at the same time brings high detail to the end product. Dragon is proud to introduce DRAGON STYRENE 100, a cross breed that has the advantage of both polystyrene and PVC vinyl, developed and formulated by the Dragon R&D Team.

1 it allows filing, cutting, sanding and polishing

2 easy to get rid of parting lines by modeling thinner

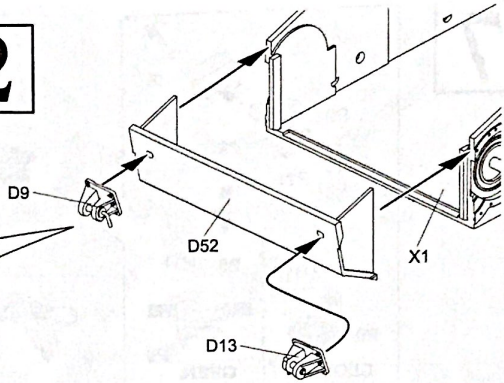

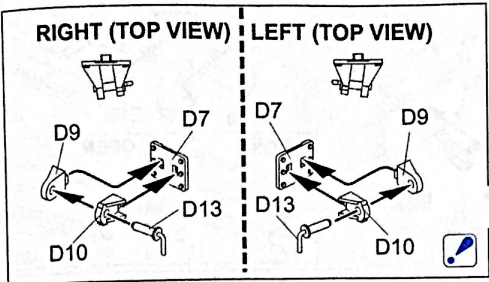

3 can be glued using normal modeling liquid cement
