AIRWAVES FOR COLLECTOR MODELLERS

Bristol Beaufighter

This detail set is manufactured from photo etched brass sheet and is for use on the Matchbox model kit.

Prior to using feet wash in liquid detergent and rinse in clean water to deflux and clean parts. To seperate parts support feet on a firm surface such as a ceramic title and out as near to the part is possible using a new sharp blade. Tag scars can be cleaned by holding part in plues and using a fine fitte. To fold part support evenly up to live of fold and field in one go using a blade for leverage for assentity of parts use superglue or five minute epoxy. Prior to painting, prime parts using mail enamelor self-ething primer. Position of parts in diagrams is for guidance only for final position and roloring consult reference material details of which are elsewhere on this sheet.

An waves are manufactured and distributed by E.D. Models, 64 Strafford Road, Shirley, Solibull, West Bildands. 1890.31.P. England. Telephone - 021-744-7488. Fax - 021-733-2591
