ENG

The Boeing C-40 Clipper is a military version of the Boeing 737 Next Generation used to transport cargo and passengers. First flight took place in April 2000 and the first of the C-40A aircraft entered service in April 2001.

The U.S. Navy Reserve was the first customer for a 737 Next Generation based "combi" aircraft (capable of transporting cargo and passengers). In the 2018 Marine Aviation Plan, the U.S. Marine Corps indicated that it intended to acquire two C-40A aircraft for airlift missions, replacing its Skytrain fleet. The United States Air Force selected the C-40B, a military version of the 737-700 Boeing Business Jet, to replace the aging fleet of C-137 aircraft used to transport U.S. combatant commanders.

technical data

Length: 33.63 m Span: 34.32 m Height: 12.55 m
Max take-off weight: 77 564 kg Payload capacity: 18 144 kg
Range: 9 300 km Cruising speed: 989 km/h
Ceiling: 12 000 m Crew: 9 persons

UKR

Boeing C-40 Clipper є військовою версією Boeing 737 Next Generation, яка використовувалася для перевезень вантажів та пасажирів. Перший політ C-40A відбувся в квітні 2000 року. Літак надійшов на озброєння у квітні 2001 року.

Резерв ВМС США був першим замовником 737 Next Generation, як літака "комбі" (здатного перевозити вантаж і пасажирів). У плані морської авіації на 2018 рік, Корпус морської піхоти США заявив, що має намір придбати два літаки C-40A для місій авіаперевезень, замінивши свій парк Skytrain. ВПС США вибрали C-40B, військову версію 737-700 Boeing Business Jet, щоб замінити застарілий парк літаків C-137, які використовувалися для транспортування бойового командування США.

технічні характеристики

Довжина: 33,63 м Розмах: 34,32 м Висота: 12,55 м
Максимальна злітна вага: 77 564 кг Корисна вага: 18 144 кг
Дальність: 9 300 км Крейсерська швидкість: 989 км/год.
Фактична стеля: 12 000 м Екіпаж: 9 чол.
