Builders Notes

Air Group 20 16 August to 23 November 1944. Four Squadrons assigned. VF-20 was equipped with Brand New F6F-5 in overall Sea Blue. F6F-3N from VF(N)-78 provided defense against night intruders. VB-20 was equipped with SB2C-3s in the Tri-color scheme, like their VT stable mates, VT-20 flying TBF-1Cs. Air Group 20 adopted a White triangle with black plane numbers painted on the tails of each aircraft.

Air Group Night 90. Dec 1944-May 1945. Only two squadrons were assigned to the first Night Air Group deployed in the USN. Given some latitude by the USN to adopt their own "Geometric" aircraft markings, they adopted a forward arrow outline containing the plane number. VF(N)-90 was equipped with -5,-5N, and -5P *Hellcats* flown by experienced aviators painted overall Sea Blue. VT(N)-90 were equipped with TBM-3D, a dedicated night attack version of the *Avenger*. Paint scheme initially had the white underside, quickly repainted to black. Side numbers in some photos appear darkened, gray or black possibly.
