Resin Aircraft Accessory

Some very minor sanding and fitting will be necessary to mate this exhaust to your kit nacelle

Photo-etched parts

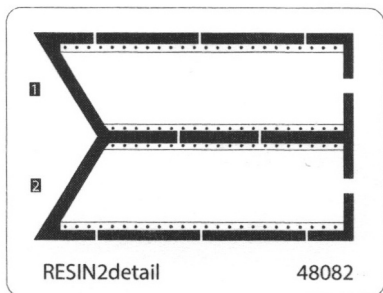

R-1

Left Nacelle

R-2

Right Nacelle

Carefully remove shrouds from fret using a sharp hobby knife. Use 5.0mm rod, pencil or other cylindrical object to curve the shroud. The angled end faces the tail of the plane (slanted backwards). Paint fuselage color; chip and "ding" as appropriate for weathering purposes!
