

## SpPz 2 "Luchs" A2 SFOR

Der ab 1975 bei der Bundeswehr in den Panzeraufklärungsбатаillonен eingesetztе Spähpanzer 2 (8 x 8) "Luchs" ist gut gepanzert, verfügt über eine integrierte ABC-Schutzanlage und zeichnet sich durch äußerst leise Fahrgeräusche aus. Die acht großvolumigen Niederdruckreifen weisen Notlaufeigenschaften auf, und für Geschwindigkeiten bis zu 30 km/h können alle vier Achsen gelenkt werden. Von einem DB 10-Zylinder Vielstoffmotor mit 389 PS angetrieben, erreicht das Fahrzeug eine Höchstgeschwindigkeit von bis zu 90 km/h auf der Straße. Die Besatzung besteht aus Kommandant, Vorwärtsfahrer, Richtschütze und Rückwärtsfahrer/Tastfunker. Im Verlauf seiner Einsatzzeit wurde das Fahrzeug auch mehrfach modernisiert und erhielt in der Version SpPz 2 "Luchs" A2 u.a. ein Wärmebild-Ziel und Beobachtungsgerät. Als Bewaffnung dienen eine Bordmaschinenkanone RH 202 Mk 20 mm mit Munitionswechseinrichtung und, als Sekundärwaffe, ein 7,62 mm MG 3. Der SpPz 2 "Luchs" A2 wurde im Rahmen der IFOR in Kroatien und Bosnien als Konvoibegleitschutz eingesetzt. Er dient nun bei der SFOR in Bosnien und Herzegovina im Rahmen der Friedenssicherung. Ein Teil der dort eingesetzten Fahrzeuge, wie auch ein Teil der jüngst in Mazedonien stationierten, ist mittlerweile mit einer GPS-Navigationsanlage, einem Kreiselkompaß und einer zusätzlichen Datenfunkantenne kampfwertgesteigert worden.

## SpPz 2 "Luchs" A2 SFOR

The 8 x 8 "Luchs" reconnaissance vehicle that has been used in the Germany army reconnaissance batallions since 1975 is well armoured, has an integral NBC protection system and is also characterized by extremely low running noise. The eight large low pressure tyres have run-flat properties and all four axles can be steered at speeds up to 30 km/h. Driven by a DB 10 cylinder multi-fuel 389 hp engine, the vehicle develops a maximum speed of 90 km/h on the road. The crew consists of commander, forward-facing driver, gunner, and rear-facing driver/radio operator. During its service life the vehicle was also modified several times and the SpPz 2 "Luchs" A2 version was given a thermal image aiming and observation system. The armament consists of an RH 202 Mk 20 mm cannon with variable ammunition feeder and as secondary armament a 7.62 mm MG 3. The SpPz 2 "Luchs" A2 was used for convoy escort duties by the IFOR in Croatia and Bosnia. It is now used by the SFOR peacekeeping mission in Bosnia and Herzegovina. Some of the vehicles used there, and likewise some of those more recently stationed in Macedonia, have in the meantime been upgraded with a GPS navigation system, a gyro compass and an additional data radio antenna.
