This aircraft was autographed by most of the squadron personnel in the white areas under both wings. This writing is too fine to reproduce successfully on the decals. The modeler can use a fine technical pen or crow quill and India ink to simulate this "graffiti".

This aircraft was painted in a westwood scheme which is not documented in the current USAF Technical Order I-1-4 "EXTERIOR FINISHES, INSIGNIA & MARKINGS". The modeler will have to use his own discretion for the undersurface pattern, generally the colors "wrap-around" from the upper surfaces.
