

Highly detailed resin exterior upgrade set. Perfect for Hobby Boss kit.

TC 72037

The Mi-8MTV-5 (Mi-17-V5) is a radically modernized version of the Mi-8MTV-1 helicopter. The Mil Mi-8MTV-5 (Mi-17-V5) multipurpose helicopter is intended for rapid airlift of troop forces to a combat area in the daytime and at night and air fire support. First flight in this guise was in January 1998, first production Mi-17V-5 flew August 1999. Kazan-built production model with port side door enlarged from 0.83 m (2 ft 8 1/2 in) to 1.25 m (4 ft 11/4 in); new 0.83 m (2 ft 8 1/2 in) wide starboard sliding door; rear flat ramp with single hydraulic cylinder drive installed on helicopter floor and capable of being lowered to horizontal position in flight, permitting disembarkment of up to 36 troops in 15 seconds. Series production started in 1999. The Mi-17V-5 multi-mission helicopter is still manufactured by Kazan and is also offered as an upgrade. Further upgrades on offer include transport, special operations, medevac, SAR, fire fighting and combat variations.

Detail resin set to make the Mil Mi-8/17 "Hip". For experienced modellers. Many items have a complex shape and very slim design and require increased care and accuracy in circulation. For best result gluing use cyanoacrylate glue. Not for children.
