

This detail set is manufactured from photo etched brass sheet and is intended for use on the 1:48 scale Hobbycraft kit.

To separate components from fret use a sharp knife or scalpel ensuring that cutting is done on a firm surface. Tag scars can be cleaned by holding part in pliers and using a fine file. To fold, hold in pliers up to line of fold and fold in one go using blade of a screwdriver. To glue parts together use superglue or epoxy. Before painting, ensure that parts are thoroughly cleaned by washing in detergent and rinsing in clean water, then primed using either self etching primer or matt finish enamel.

Position of parts in diagrams are for guidance only. Colouring and final positioning should be checked against reference material.

Airwaves are designed and manufactured in the Midlands for E.D. Models, 64 Stratford Road, Shirley, Solihull, West Midlands B90 3LP, England. Telephone 021-744-7486.
