**Mosquito B Mk.XVI  
Undercarriage Wheels**  
for Airfix kit only

© Special Hobby 2022

PUR - Polyurethane parts

Díly ohnuté popř. pokroucené vlivem teplotních změn a stárnutí materiálu, mohou být narovnány do požadovaného tvaru pomocí proudu teplé vody nebo vzduchu (fén na vlasy). K lepení použít kyanoakrylátové lepidlo! Kontaktní plochy doporučujeme před lepením odmastit. Různé drátky a tyčinky nejsou přiloženy.

Parts slightly distorted and bent owing to temperature changes or due to material aging can be straightened to requested shape by hot water or hot air jet (hair dryer). This process can be repeated till result is entirely satisfactory. For best result use cyanoacrylate glue! Ungreasing contact areas is recommended before gluing. Wires and rods not included.

**CMK H1010**

The Razor Saw with Handle (cat. n. H1010) is a great tool for cutting both plastic and resin. CMK also offers a wide variety of coarse / medium / fine saws.

kroky 30 a 65 v návodu stavebnice  
steps 30 and 65 in kit instructions

**Warning**

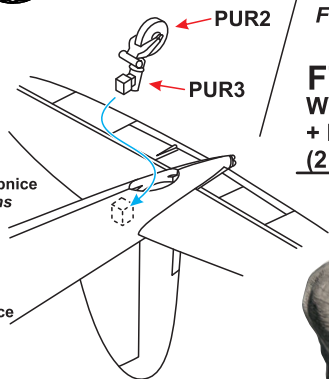

The wheels in this set are only designed to fit the new Airfix kit. The kit's undercarriage legs are too close to each other that the wheels must be narrow and not to scale. For Hasegawa or Tamiya kits, please get our set no. 7510.

**Upozornění**

Kola tohoto set jsou určena pouze pro novou stavebnici firmy Airfix. Stavebnice má příliš malou mezeru mezi levou a pravou částí podvozkové nohy a kola tak musí být úzká. Pro stavebnice Tamiya a Hasegawa nabízíme set číslo 7510.
