W/C C.F. Gray, victory 27+2 - 6+4 - 12 |

All camouflages are reconstruction of possible appearance.

How to apply decals

1. Cut out the needed detail from the sheet.
2. Submerge the decal completely in lukewarm water for 15 sec.
3. Put the wet decal on non-blotting base and allow it soften completely.
4. Place the decal together with the base paper on the model. Keep the decal by tweezers and remove the base paper carefully. In case that the decal was placed incorrectly, add eater with a brush on the border of the decal. The position of the decal can be corrected then.
5. If the decal is located on the right place, press it with a soft cloth to eliminate all water and air bubbles.
6. Allow the decal dry well.
