

Tornado ADV / F2 / F3 ITALY

Designed for 1/32 scale

Some 1/32 modellers do conversions for a Tornado ADV F2 or F3 air defence variant. There were some 1/32 conversion aftermarket sets.

ADV F2 and F3 have some special service markings, walk ways and obviously squadron markings. Aftermarket decal sheets often had no white walk way lines or are out of print.

NOTE: these are available through decals sheet **AIPD 01**.

DECALS SYSTEM

The decal sheet has one continuous print film, so each decal needs to be cut out with fine scissors.

No other prior decal preparation is needed.

Each cut out decal can be applied as usual after soaking it a short while in water. Decals are VERY THIN, so slide off from the wet backing sheet on a horizontally held GLOSSY model surface.

Note that a decal that contains a white section is often split in two parts. To apply the full decal marking, first set the white decal section at correct position and on top of that the coloured section. On the decals sheet you will often see an "arrow" to indicate this way of application (on white surfaces, the white section is optional).

After all decals have been applied, finish the model with your preferred final gloss, matt or semi-matt varnish coats. This will also protect all the decals.

DECALS SHEET ITALIA MARKINGS

Contains markings for an 1/32 scale Italian Tornado F3 for no. 12 Stormo:

"36-10" MM7232 or "36-12" MM7202.

With some research you may be able to make other Italian Tornado ADV schemes as well, e.g. without falcon flash, stallion etc.

NOTE: smaller stencillings are to be obtained/ used from the Tornado kit.

COLOURS TORNADO ADV F3 ITALIA

These are the PROBABLE colours:

ADV F3 is similar to RAF scheme introduced in 2005: national markings full colour:
Overall airframe: medium sea grey BSC 637
