Decal Placement Instructions

ANTI GLARE PANEL  
(Provided as decal 1/72 only.)  
938

WINDOW  
(Provided as decal 1/72 only.)

VERTICAL STAB DE-ICER BOOT  
(Provided as decal 1/72 only.)

No nose decal #938 use with this version.

If modeling #938 with F-104 nose, daglo red is to be used instead of red on wing tips and horizontal stabs.

#938 carried "DOLLY'S FOLLY" on nose for a short time after it was converted back to normal nose cone.

NOSE CONVERSION  
Resin nose conversions are available from Leading Edge Models. Write for availability.

#2959  
Use #959 codes for "Pinocchio"

#959 "PINOCCHIO" C-47  
If modeling this aircraft as an F-104 radar training classroom use daglo red instead of red on wing tips and horizontal stabs. After this mission was over the nose modification remained on the aircraft until retirement where it now resides at CFB Cold Lake. Regular red as depicted on #938 may be used to represent this aircraft as a general purpose transport.

If modeling the F-104 nosed versions when used as F-104 radar training classroom, use daglo red instead of red. Also do not use decals #3, 4, 5, 6, 7, 9 & 11.

WINDOWS  
(Provided as decals 1/72 only.)

Paint front of cowling red to match decal.
