

# 1:48 Westland Lynx HMA8/Mk.88A/Mk.90B

A10107A SCALE MODEL CONSTRUCTION KIT | Width: 265mm Fuselage Length: 316mm | Three Decal Schemes Included

**EN**

The Westland Lynx is a British multi-role helicopter that has seen service in both land based Army forms, as well as ship based Naval variants. Entering service in 1977, the Lynx has since seen many upgrades and improvements throughout its service history.

The Mk8 Naval variant entered service with the Royal Navy in the early 1990s and has since gone on to provide them with an excellent maritime attack helicopter, performing well in the anti-submarine role, as well as search and rescue and more recently, anti-piracy operations off the coast of Somalia.

Equipped with a range of weapons from Sea Skua anti-ship missiles, to the M3M .50cal heavy machine gun, the Lynx is more than adequately equipped to deal with almost any situation when patrolling the high seas. The Mk8, as well as the export 88A and 90B, all featured upgraded engines and the latest in rotor technology, the CMRB blade system, giving these versions an edge in both speed and manoeuvrability over their predecessors.

The Lynx has been sold to numerous nations across the world, becoming an export success. The Danish Navy operates them as a fisheries protection aircraft and armed with a sole .50 inch machine gun, these aircraft

**FR**

Hélicoptère polyvalent britannique, le Westland Lynx a servi aussi bien comme appareil de l'armée de terre que variante navale embarquée sur navire. Entré en service en 1977, le Lynx a connu de nombreuses mises à jour et améliorations au cours de son histoire opérationnelle.

En service au sein de la Royal Navy depuis le commencement des années 1990, la variante navale Mk8 a évolué en tant qu'excellent hélicoptère d'attaque maritime, très performant dans la lutte anti-sous-marine et pour la recherche et sauvetage, ainsi que lors des opérations récentes contre les pirates au large de la Somalie.

Équipé d'une gamme d'armes, à partir des missiles anti-navires Sea Skua jusqu'à la mitrailleuse lourde M3M de 12,7 mm, le Lynx est plus que suffisamment armé pour faire face à presque n'importe quelle situation rencontrée lors de ses

patrouilles en haute mer. Grâce à leur moteurs perfectionnés et au système de pales CMRB, dernière technologie de rotors, la version Mk8 ainsi que le 88A et le 90B destinés à l'exportation, ont des avantages par rapport à leurs prédécesseurs en ce qui concerne la vitesse et la manoeuvrabilité.

Un grand succès d'exportation, le Lynx a été vendu à de nombreux pays du monde entier. La marine danoise

**DE**

Der Westland Lynx ist ein britischer Mehrzweckhubschrauber, der sich sowohl in bodenbasierter Armee- als auch in seebasierter Marineverwendung bewährt hat. Seit seiner 1977 erfolgten Einführung wurde der Lynx vielfältig weiter entwickelt und kontinuierlich verbessert.

Die Marinevariante Mk8 wird seit den frühen 1990er Jahren von der Royal Navy verwendet und leistet dabei hervorragende Dienst als Marine-Angriffshelikopter, wobei er hohe Leistungen bei U-Boot-Abwehr, bei Such- und Rettungsaktionen und in letzter Zeit auch bei der Pirateriebekämpfung im Küstenbereich von Somalia erbracht hat.

Mit einer Reihe von Waffen von Sea Skua Seezielflugkörpern bis zu schweren 12,7 mm MG vom Typ M3M bestückt, ist der Lynx bei Luftpatrouillen über dem Meer fast jeder Situation gewachsen. Die Ausführung Mk8 wie auch die Exportversionen 88A und 90B wurden mit besonders leistungsstarken Motoren ausgestattet und bieten mit dem Rotorblattsystem CMRB rotartechnische Eigenschaften auf höchstem Niveau, womit diese Maschinen in Bezug auf ihre Geschwindigkeit und Wendigkeit ihre Vorgänger bedeutend übertreffen.

Der Lynx wurde weltweit an viele Länder verkauft und entwickelte sich zu einem echten Exportschlager. Die Seestreitkräfte von Dänemark setzen ihn für den Fischereischutz ein, wobei die Maschine bloß mit einem einzigen 12,7 mm MG bewaffnet ist; außerdem werden die Maschinen zur Bekämpfung der Piraterie verwendet. Die Bundesmarine benutzt den Lynx ähnlich wie die Royal Navy, wobei jedoch der Schwerpunkt

auf Such- und Rettungsaktionen gelegt wird.

Der Lynx wird in den nächsten Jahren in allen drei Lufteinheitsbereichen der Royal Navy weiterhin seinen Dienst verrichten, bis er schließlich entweder durch neuere Versionen davon oder durch andere Hubschrauber ersetzt wird.

### Specification

Maximum Speed: 201 mph (320 km/h)

Range: 328 miles (530 km)

Rotor diameter: 42 ft 0 in (12.8m)

Length: 49 ft 10.8 in (15.2 m)

Armament: 2 x torpedoes or 2 x depth charges or 2 x Sea Skua missiles or 1 x M3M .50cal HMG

l'utilise en tant qu'avion de protection de pêche. Armés d'une seule mitrailleuse de 12,7 mm, ces appareils ont également participé aux opérations anti-piratage. La marine allemande les opère de la même façon que la Royal Navy mais avec plus d'emphasis sur la recherche et le sauvetage.

Le Lynx continuera à servir au sein des trois forces aéronavales pendant les prochaines années, avant d'être remplacé soit par de nouvelles versions du Lynx soit par de différents hélicoptères.

### Spécification:

Vitesse maximale: 320 km/h

Autonomie: 530 km

Diamètre du rotor : 12,8 m

Longueur: 15,2 m

Armement: deux torpilles ou deux grenades sous-marines ou deux missiles Sea Skua ou une mitrailleuse lourde M3M de 12,7mm

### Spezifikation:

Höchstgeschwindigkeit: 320 km/h

Reichweite: 530 km

Rotordurchmesser: 12,8 m

Länge: 15,2 m

Bewaffnung: zwei Torpedos oder zwei Unterwassersprengkörper oder zwei Sea Skua Raketen oder ein 12,7 mm MG vom Typ M3M

**HORNBY  
HOBBIES**

### FOR BEST RESULTS:

Surfaces to be painted should be clean — before parts are removed from the sprue, wash in warm, soapy water, rinse and dry thoroughly. Stir paints thoroughly before use.

### PLEASE NOTE:

Some parts in the kit may not be required to build the model specified.

Manufactured by: Hornby Hobbies Ltd Westwood, Margate, Kent, CT9 4JX, UK +44(0)1843 233525 customerservices.uk@hornby.com

ES

El Westland Lynx es un helicóptero británico multiuso que ha estado en servicio en ambas formas del ejército de tierra, además de como variante naval en buques de guerra. El Lynx que entró en servicio en 1977, ha visto desde entonces muchas actualizaciones y mejoras durante su historial de servicio.

La variante naval Mk8 entró en servicio con la Armada Británica a principios de 1990 y desde entonces ha servido para proporcionarles un excelente helicóptero de ataque marítimo, ejecutando bien en el papel de antisubmarino, además de en el papel de búsqueda y rescate, y más recientemente, en operaciones antipiratería en la costa de Somalia.

Equipado con una gama de armas como misiles antibuque Sea Skua, y la ametralladora pesada M3M de 12,7mm, el Lynx está más que adecuadamente equipado para enfrentarse con casi cualquier situación cuando patrulla en alta mar. El Mk8, además de la exportación 88A y 90B, que se caracterizan todos ellos por tener motores mejorados y la última en tecnología de rotor, el sistema de pala CMRB, da a estas versiones una ventaja tanto en velocidad como en facilidad de manejo sobre sus predecesores.

El Lynx se ha vendido a muchas naciones del mundo, convirtiéndose en un éxito de exportación. La Armada Danesa los opera también como aparato de protección de la industria pesquera y va armada con una sola

SV

Westland Lynx är en brittisk multirothelikopter som har använts både på land och till sjöss, i det senare fallet baserad på fartyg. Lynx, som började användas 1977, har upgraderats flera gånger under sin långa tjänstgöringsperiod.

Den sjö baserade Mk8-varianten började användas av den brittiska flottan i början på 1990-talet och har sedan dess visat sig vara en utmärkt attackhelikopter under sjöuppdrag, inklusive ubåtsbekämpning, sök- och räddningsuppdrag och på senare tid även piratbekämpning utanför Somalians kust.

Lynx, som är utrustad med ett antal vapen, från Sea Skua-robotar till en 12,7 mm tung M3M-kulspruta, är mer än kapabel att hantera praktiskt taget alla situationer som kan uppstå under patrullering över havet. Mk8 samt exportversionerna 88A och 90B har upgraderade motorer, den senaste rotortekniken och ett CMRB-bladsystem som ger samtliga dessa versioner en överlägsen hastighet och manöverbarhet jämfört med fienden.

Lynx har sålts till flera länder världen över och är således en framgångsrik exportvara. Den danska flottan har använt dem i fiskeskyddshänseende, och med 12,7 mm-kulsprutan monterad är helikoptrarna även lämpliga

ametralladora de 12,7mm. Este aparato ha estado también en servicio en operaciones antipiratería. La Armada Alemana los opera de forma similar a la Armada Británica, pero con un énfasis adicional en la búsqueda y rescate.

El Lynx continuará sirviendo en las tres Armadas Aéreas Navales durante los próximos años, hasta que sea reemplazado por versiones más modernas del Lynx, o por helicópteros diferentes.

**Especificación:**

Velocidad máxima: 320 km/h

Autonomía: 530 km

Diámetro del rotor: 12,8 m

Longitud: 15,2 m

Armamento: 2 x torpedos o 2 x cargas de profundidad o 2 x misiles Sea Skua o 1 x M3M 12,7mm HMG

för piratbekämpning. Den tyska flottan har använt helikoptern ungefär på samma sätt som den brittiska, men med större fokusering på sök- och räddningsuppdrag.

Lynx kommer att fortsätta att tjänstgöra i de tre flottorna de närmaste åren tills de ersätts av en senare Lynx-version eller andra helikoptrar.

**Specifikation:**

Maximal hastighet: 320 km/h

Räckvidd: 530 km

Rotordiometer: 12,8 m

Längd: 15,2 m

Bestyckning: 2st. torpeder eller 2 st. sjunkbomber eller 2 st. Sea Skua-robotar eller 1 st. M3M 12,7 mm HMG

## ASSEMBLY INSTRUCTIONS

**EN** Study drawings and practise assembly before cementing parts together. Carefully scrape paint from cementing surfaces. All parts are numbered. Paint small parts before assembly. To apply decals cut sheet as required, dip in warm water for a few seconds, slide off backing into position shown. Use in conjunction with box artwork. Not appropriate for children under 36 months of age, due to the presence of small detachable parts.

**FR** Étudier attentivement les dessins et simuler l'assemblage avant de coller les pièces. Gratter soigneusement toute peinture sur les surfaces à coller. Toutes les pièces sont numérotées. Peindre les petites pièces avant l'assemblage. Pour coller les décalcomanies, découper le motif, le plonger quelques secondes dans de l'eau chaude puis le poser à l'endroit indiqué en décollant le support papier. Utiliser conjointement avec les illustrations sur la boîte. Ne convient pas aux enfants de moins de 36 mois – présence de petits éléments détachables.

**DE** Vor dem Zusammenkleben der Teile die Zeichnungen sorgfältig ansehen und die zu verklebenden Teile zur Vermeidung möglicher Fehler versuchsweise zusammenfügen. Dann an den Klebeflächen vorhandene Farbbeschichtung vor dem Zusammenkleben vorsichtig abkratzen. Alle Bestandteile sind mit Nummern versehen. Kleine Teile vor dem Zusammenbau bemalen. Abziehbilder wie gewünscht ausschneiden. Vor dem Anbringen einige Sekunden in warmes Wasser tauchen und dann vom Trägerpapier in ihre vorgesehene Position schieben. Dabei die Abbildungen auf der Schachtel beachten. Nicht für Kinder unter 36 Monaten geeignet, da abnehmbare bzw. lose angebrachte Kleinteile enthalten sind.

**ES** Estudiar los dibujos y practicar el montaje antes de pegar las piezas. Raspar cuidadosamente la pintura en las superficies de contacto antes de pegar las piezas. Todas las piezas están numeradas. Es conveniente pintar las piezas pequeñas antes de su montaje. Para aplicar las calcomanías, cortarlas de la hoja, sumergirlas en agua tibia durante unos segundos y deslizarlas a la posición indicada. Utilizar en conjunción con la ilustración de la caja. No es adecuado para niños menores de 36 meses, ya que contiene piezas pequeñas que podrían soltarse.

**SV** Studera bilderna noggrant och sätt ihop delarna innan du limmar ihop dem. Skrapa försiktigt bort färg från limmade delar. Alla delarna är numererade. Måla smådelarna före ihopsättning. Sätt fast dekalerna genom att klippa arket, doppa i varmt vatten några sekunder och låta baksidan glida på plats som bilden visar. Använd enligt bildanvisningarna på kartongen. Rekommenderas ej för barn under 3 år. Innehåller löstagbara smådelar.

**NL** Tekeningen bestuderen en delen in elkaar zetten alvorens deze te lijmen. Lak voorzichtig van lijmvlakken afschrapen. Alle delen zijn genummerd. Kleine delen vóór montage verven. Voor aanbrengen van stickers, gewenste stickers uit het vel knippen, een paar seconden in warm water dompelen en dan van het schutblad af op afgebeelde plaats schuiven. Hierbij afbeelding op doos raadplegen. Niet geschikt voor kinderen onder 3 jaar, omdat kleine deeltjes gemakkelijk kunnen losraken.

**PO** Przed przystąpieniem do sklepania przestuduj uważnie rysunki i przećwicz składanie części. Ostrożnie zeskrub ze sklepanych powierzchni farbę. Wszystkie części są ponumerowane. Drobne części pomaluj przed ich złożeniem. Celem przeniesienia kalkomanii wytnij ją z arkusza, zanurz na kilka sekund w letniej wodzie i zsuń z podłoża na wymagane miejsce. Używaj w połączeniu ze wzorami na pudełku. W związku z obecnością wielu drobnych, rozbiernych części, nieodpowiednie dla dzieci poniżej 3 lat.

**IT** Studiare i disegni ed esercitarsi a montare i vari pezzi prima di fissarli con la colla. Raschiare con cura le tracce di vernice dalle superfici da incollare. Tutti i pezzi sono numerati. Verniciare i pezzi di piccole dimensioni prima di montarli. Per applicare le decalcomanie, ritagliare il foglio nel modo richiesto, immergere in acqua calda per alcuni secondi, quindi staccare la decalcomania dalla carta di supporto e posizionarla nel punto desiderato. Usare le decalcomanie come indicato nell'illustrazione riportata sulla confezione. Non adatto a bambini di età inferiore a 36 mesi per la presenza di componenti di piccole dimensioni che potrebbero staccarsi.

**PT** Estudar atentamente os desenhos e experimentar a montagem. Raspar cuidadosamente as superfícies de modo a eliminar pintura antes de colar. Todas as peças estão numeradas. Pintar as pequenas peças antes de colar. Para aplicar as decalcomanias, cortar as folhas e mergulhar em água morna por alguns segundos, depois deslizar e aplicar no respectivo lugar, como indicado nas ilustrações na caixa. Não convém a uma criança de menos de 36 meses devido à presença de pequenos elementos destacáveis.

**EL** Μελετήστε προσεκτικά τα σχέδια και συναρμολογήστε για πρώτη φορά τα κομμάτια χωρίς να τα συγκολλήσετε. Αφαιρέσετε επιμελώς την πλαστική βαφή από τις επιφάνειες τις οποίες θα συγκολλήσετε. Όλα τα κομμάτια είναι αριθμημένα. Χρωματίστε τα μικρά κομμάτια πριν από τη συναρμολόγηση. Για να κολλήσετε τις χαλκομανίες, κόψετε γύρω από το σχέδιο όπως απαιτείται, βυθίστε το μερικά δευτερόλεπτα σε χλιαρό νερό και μετά τοποθετήστε το στη θέση που υποδεικνύεται, αφαιρώντας τη μεμβράνη που το καλύπτει. Λάβετε υπόψη σας ταυτόχρονα την εικονογράφηση του κουτιού. Ακατάλληλο για παιδιά ηλικίας κάτω των 36 μηνών λόγω ύπαρξης μικρών κομματιών που αποσπώνται.

**FI** Tutustu piirroksiin ja harjoittele kokoamista, ennen kuin liimaat osat yhteen. Raaputa maali varovasti pois liimattavilta pinoilta. Kaikki osat on numeroitu. Maalaa pienet osat ennen kokoamista. Siirtokuvien kiinnittämiseksi leikkaa ne arkista tarpeen mukaan. Kasta kuva lämpimään veteen muutaman sekunnin ajaksi, anna takapuolen liukua kuvalle osoitettuun kohtaan. Käytetään yhdessä laatikon kuvituksen kanssa. Ei suositella alle kolmivuotiaille lapsille. Pajon irrotettavia pikkuosia.

**DA** Studér tegningerne nøje og forsøg at sætte delene sammen, inden de klæbes sammen. Skrab forsigtigt malingen af de overflader, der skal klæbes sammen. Alle dele er nummererede. Små dele skal males, før de monteres. Overføringsbillederne påføres ved at klippe dem ud af arket, som påkrævet, dykke dem i varmt vand i nogle få sekunder, hvorefter underlaget glides af i de viste positioner. Påføres ifølge illustrationerne på æsken. Ikke egnet til børn under 3 år på grund af tilstedeværelse af små aftagelige dele.

**EN** This Airfix model of the Westland Lynx can be built in the three configurations shown below to suit different mission types. In addition, decals and painting guides are included for aircraft from three different naval air arms. These options are referred to below and in the painting guides as A, B & C. Please note that mission options 1 & 2 are suitable for all three decal schemes, but that option 3 is only suitable for decal scheme A. Please choose your preferred combination of options before starting to build the model and follow the instructions specific to your choices. All options can be built with folded or unfolded main rotor blades, but only scheme A should be built with the folded tail rotor option.

**FR** Cette maquette Airfix du Westland Lynx peut être configurée de trois façons, montrées ci-dessous, pour convenir aux différents types de missions. En outre, il y a des décalcomanies et des guides de peinture pour les avions de trois différents aéronavals. Ces options ci-dessous et dans les guides de peinture ont les références A, B et C. Notez que les options de mission 1 & 2 conviennent aux trois systèmes de décalcomanies mais l'option 3 ne convient qu'à la décalcomanie système A. Veuillez sélectionner la combinaison d'options préférée avant de commencer la construction de la maquette, puis suivez les instructions spécifiques à vos choix. Toutes les options peuvent être construites avec ou sans le pliage des pales du rotor principal mais seulement le système A doit être construit avec l'option de rotor de queue plié.

**D** Dieses Airfix Modell des Westland Lynx kann in drei verschiedenen Konfigurationen für unterschiedliche Einsatzweisen ausgeführt werden, wie dies in den drei untenstehenden Wahlmöglichkeiten gezeigt ist. Zusätzlich enthält dieser Bausatz Abziehbilder und Lackiervorlagen für drei verschiedene Lufteinheitsbereiche der Royal Navy. Diese Wahlmöglichkeiten sind in den Lackiervorlagen als A, B und C bezeichnet. Bitte beachten Sie, dass die Einsatzoptionen 1 und 2 für alle drei Abziehbildversionen geeignet sind, die Option 3 jedoch nur

für die Abziehbildversion A verwendbar ist. Nachdem Sie sich für eine der drei Möglichkeiten entschieden haben, folgen Sie bitte der Ihrer Version entsprechenden Abfolge der erforderlichen Bauschritte. Alle Optionen können mit oder ohne eingeklappten Rotorblätter gebaut werden, doch ist die Lackiervorlage A nur für die Option mit eingeklapptem Heckrotor geeignet.

**E** El modelo Airfix del Westland Lynx puede configurarse de las tres formas que se muestran a continuación, adecuadas para diferentes tipos de misión. Se incluyen también calcomanías y guías de pintura para aparatos pertenecientes a tres armas diferentes de aviación o marina. En las instrucciones siguientes y en las guías de pintura, estas opciones se denominan A, B y C. Ten en cuenta que las opciones de misión 1 y 2 son adecuadas para los tres esquemas de calcomanías, pero la opción 3 solo es adecuada para el esquema A. Elije la opción que prefieras antes de comenzar a montar el modelo y sigue las instrucciones específicas para tu opción. Las tres versiones pueden montarse con o sin cola y palas de hélice plegadas, pero solo el esquema A puede utilizarse con la opción de hélice de cola plegada.

**S** Den här Airfix-modellen av Westland Lynx kan konfigureras på tre olika sätt (se nedan) beroende på uppdragstyp. Även dekaler och målningsanvisningar inkluderas för flygplan från tre olika flyggrenar inom flottan. Dessa alternativ betecknas med A, B och C nedan och på målningsanvisningarna. Observera att uppdragsalternativ 1 och 2 passar alla tre dekalmonster men att alternativ 3 endast ska användas med mönster A. Välj den kombination av alternativ som du föredrar innan du börjar att bygga modellen och följ därefter anvisningarna för ditt alternativ. Alla tre alternativ kan byggas med eller utan infällda huvudrotorblad, men observera att endast mönster A ska användas för det infällda bakre rotoralternativet.
