F-86D SABRE DOGS

48068

PART I

These particular A/C are a later D model, and have a parachute housing on the tail. You must use the Revell Germany kit or make your own alterations.

1

F-86D, 53-997 "BIG VIV", 498 FIS, Yuma circa 1956. Overall natural metal with Green 42 anti-glare panel and Black radome. Blue trim on the fin and canopy. Modeller must paint.

Use stencils and wing walk decals from kit.

2

F-86D, 52-3898 "TWEETY", 25th FIS Naha, Okinawa, 1955. Overall natural metal with Green 42 anti-glare panel and Black radome.

After all painting is done, place the airbrakes over its fuselage position. Place decal 10 (US insignia and bars) on its position. When dry and with a brand new #11 knife, cut along the panel line. When it become separated, apply some solvent solution (Micro, Aero or Super.)

3

F-86D, 53-2981 "MISS MINOOKY". 25th FIS Naha, Okinawa, 1955. Overall natural metal with Green 42 anti-glare panel and Black radome.
