Polyurethane parts PUR

Photo-etched parts PP

Clear parts CP

Díly ohnuté popř. pokroucené vlivem teplotních změn a stárnutí materiálu, mohou být narovnané do požadovaného tvaru pomocí proudu teplé vody nebo vzduchu (fén na vlasy).

Parts slightly distorted and bended owing to temperature changes or due to material ageing can be straightened to requested shape by hot water or hot air jet (hair dryer).

K lepení použít kyanoakrylátové lepidlo!
For best gluing result use cyanoacrylate glue!

Kontaktní plochy doporučujeme před lepením odmastit.
Degreasing of contact areas is recommended before gluing.

NEW ITEMS SETS 1:32
