Don Logan has been a longtime friend of Twobobs. A former USAF aviator and true American Hero, Don has been providing references to us from his extensive slide collection for over 10 years.

Teri and I consider Don a close friend and you can thank him for just about every bit of detail that has gone into this aggressor sheet. From multiple photographs to the actual Northrop paint schematics, he has provided us with the most detailed reference information that is available for these very historically significant aircraft.

Thanks also go out to Levi for his extensive catalog of reference photographs.

Twobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter.

Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
