## Alpha Jet A/E

The Alpha Jet is the result of a German-French joint effort venture of the 1970s. It is a twin-engine, two-seater light attack jet and advanced trainer aircraft.

The first production Alpha Jet for the French made its first flight in 1977. A total of 176 production of Alpha Jet E were delivered up to 1985. QinetiQ operated Alpha Jet A. It bought 12 ex-German Air Force Alpha Jets for continuation training in late 1990s.

Discovery Air Defence Services has 16 Alpha Jet A trainers, 8 of them are based with 3 Wing at Bagotville, Quebec, and the remainder are based at various fixed locations across Canada such as 4 Wing Cold Lake in Alberta.

Some Alpha Jets retained the Luftwaffe paint schemes but a few have been repainted in desert or northern camouflage.
