Pilot & Unit	No. 416 Squadron
Locale & Date	RCAF, 1944
Camouflage & Markings	Camouflage consists of Dk. Green, Ocean Gray, and Medium Sea Gray. Spinner and fuselage band are Sky. 4" Yellow ID bands on wing leading edges.
Remarks	Type A camouflage pattern.

## Paint Mixes Suggestion

### Mixed Green:

Dk Green 50%  
Med Sea Gray 50%

### RAAF Foliage Green:

Use FS 34092 with a touch of Red-Brown

### RAAF Lt. Green:

RAF Interior Green 80%  
RAF Dk. Green 20%

A/C Type	Spitfire Mk VIII
Pilot & Unit	Lt. Norm Smithell No. 79 Squadron
Locale & Date	Morotai, New Guinea, 1944
Camouflage & Markings	Camouflage consists of Foliage Green, Mixed Green, and Medium Sea Gray. Exact shade of Mixed Green is not known, probably a darker shade of Cockpit Green. Spinner is bright Green, representing 'B' Flight. Leading edges of wing and all tail surfaces are white, with camouflage showing through faded white paint on the horizontal stabilizers.
Remarks	RAF serial no. was overpainted with a poor match for Dk. Green, possibly RAAF Lt. Green.

Leading edge section on Australian A/C only.  
Both wings, top and bottom.

Decaling: Apply decals only to a glossy surface.

1. With a sharp scissors or knife, carefully cut item to be used, being careful of not cutting off the clear film around it or that belonging to an adjacent item.
2. Submerge in clean tap water for over 10 seconds and lay over an absorbent paper towel. Decal will slide freely in about 20 seconds. Do not leave decal on water bowl over ten seconds, or adhesive quality will suffer.
3. With a clean brush, apply a setting solution to the area where the decal will finally lay. (Micro, Super or Aero Set will do). With a clean pointed brush slide the decal on to the final area. Allow the setting solution to dry for about 3-5 minutes.
4. With another clean brush, apply a solvent solution over the decal (Micro, Super or Aero Sol will do). Do this if possible in one stroke since your decal will soften up and wrinkle immediately. This is an important step in the process, whatever you do **DO NOT TOUCH THE DECAL**, after this process until it is totally dry, preferably overnight.
5. When thoroughly dry, rinse your model with tap water and mild soap to wash of excess glue.
6. Finish your model with the desired final coat (gloss, flat, or semi-gloss).

Suggested Kit:  
Spitfire Family from  
Revell  
Hasegawa  
Italeri
