WITH A CHOICE OF 12

Fully Screen Printed

The RAAF Roundel, Squadron markings and badges have been reproduced under license and with the permission and approval of the Royal Australian Air Force.

RDS-139

Designed and Printed by Ronin Graphics Australia

INSTRUCTIONS:

Applying the decals.

1. Water solution for decal. Add a drop of dishwashing soap to a tray of warm water
2. We recommended that you cut as close to the item as possible to achieve the best results from each decal.
3. When soaking in water, you will need to soak them until the decal has come loose from the paper or until you can gently move it around on the paper with your finger. Alternatively you can leave it in the water until it starts to lift.
4. Wet area on the model first before applying decal as this will help you position the decal in the correct place.
5. Then slide the item off the paper and straight on to the model, using your fingers.
6. Once on the model and in the right position, lightly press down on it with a dry tissue to soak up the excess water.
7. Once the decal has set and is dry you may then use some decal setting solution to help the decal adhere to the paint on the model.

Warning: Be very gentle with the decal film when applying to the model. As the decal film is very thin and may tear if mistreated.
