LANDING GEAR DOORS: WHITE WITH RED TRIM ALONG INSIDE EDGE

Leading edge of wings have a protective adhesive decal applied to the real aircraft. Model decal has been printed with an extra wide clear to allow the decal to wrap around the leading edge and stay down on the surface of the wing. Advanced modellers may want to reduce the size of this clear coat.

IMPORTANT
Leading edge decal is applied over the other decals.

FOD COVERS DECALS
Outer areas are red. Fabricate with foil, paint red and apply decals.
