PART 1

## JUNKERS JU88 A-4 AND BREWSTER MODEL 239

### a. Junkers Ju88 A-4 JK-267

3/LeLv 24, in standard German colours of RLM 70/71 upper surfaces, RLM 65 lower surfaces. 50cm wide band on rear fuselage in 'Unica 12', a bright yellow. The same colour was used on the lower cowlings, spinner tips and wing tip undersides. Photos show a slightly darker shade has been used to over-paint the original Luftwaffe wing markings.

### b. Junkers Ju88 A-4 JK-272

4/LeLv 44, colour scheme as a. Photos clearly show over-painting of former Luftwaffe fuselage codes.

Recommended kit: Pro Modeler Ju88 A-4

### Brewster 239 Colours

Paint colours are as follows:-

UPPER:

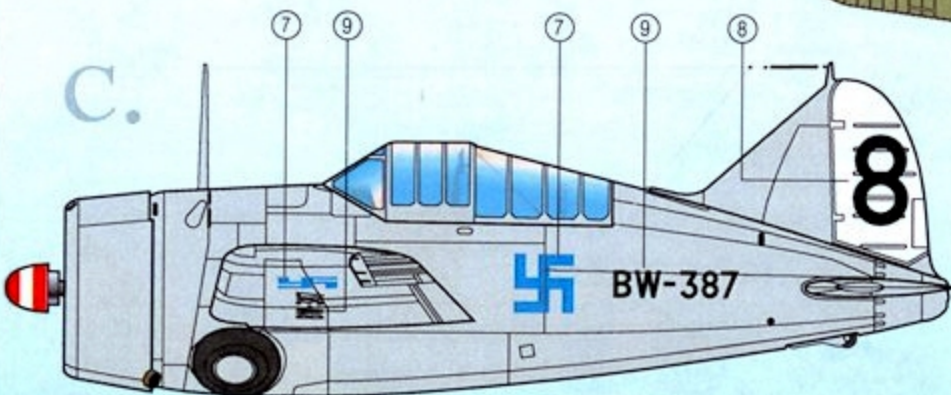

Olive Green FS 34096

Black (shown as grey on profiles)

LOWER:

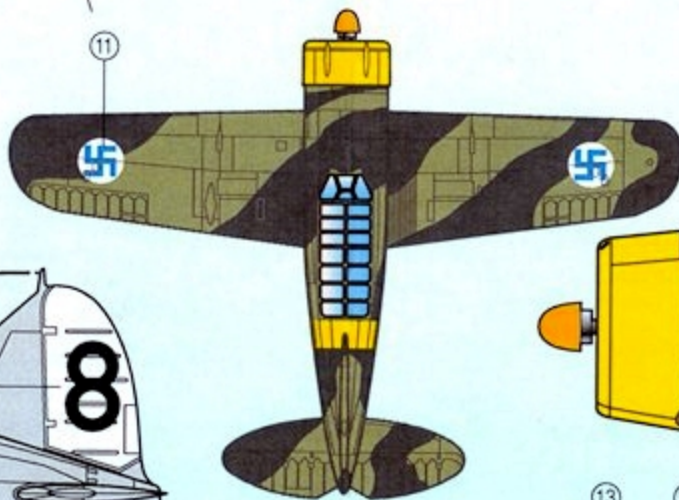

Light Grey FS 36492

Colours had soft demarcation.

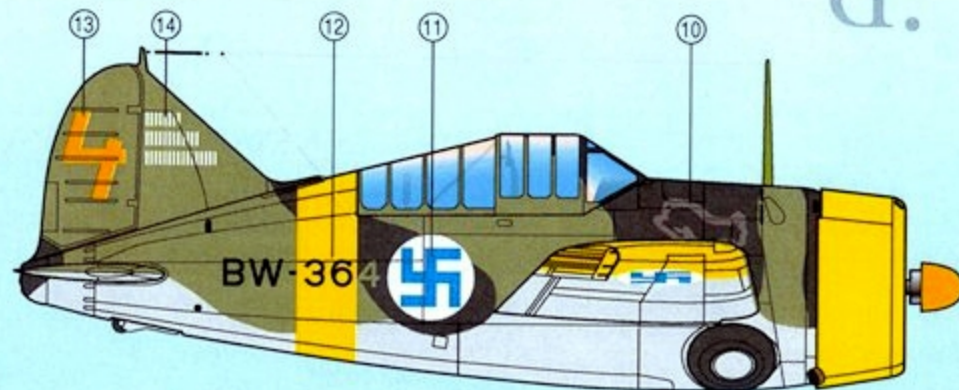

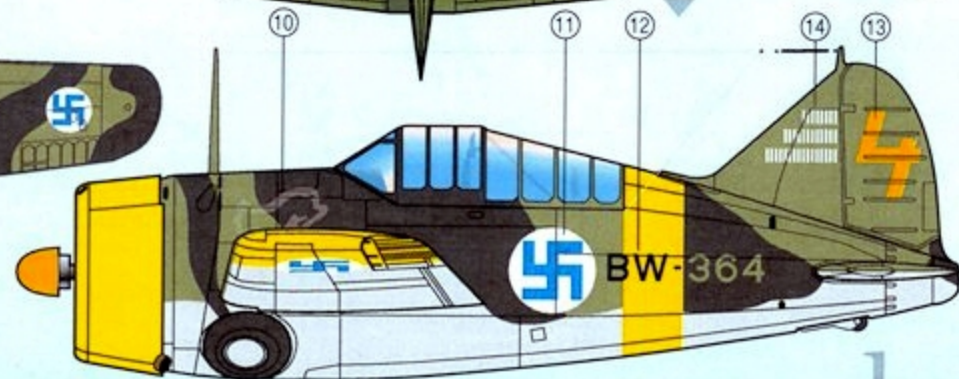

### c. Brewster 239 BW-387

4/LLv 24. Painted overall in aluminum dope, white rudder. Serial is repeated under both wings, facing forward.

### d. Brewster 239 BW-364

3/LeLv 24, flown by Warrant Officer I. Juutilainen, Finland's top scoring ace. A profile of this aircraft wearing winter camouflage appears in the book 'Sotamaalaus (Warpaint) No. 23' in the Suomen Ilmavoimien Historia series.

Recommended kit: Tamiya Brewster Buffalo with Aeromaster Buffalo Conversion Finnish, 1/48th scale (602)
